Activity Report (2025-26)

Name of Activity	Poster Presentation on "Waste Management & Recycling to Control Pollution"
Date	06/12/2025
Number of Participants	59

Brief Information about the Activity:

Objectives	<ul style="list-style-type: none">• To make students aware about environmental issues due to pollution.• Also to make students aware about the use of technological innovations in Waste Management and recycling waste to control pollution.
Outcomes	<ul style="list-style-type: none">• Students presented the poster on waste management & recycling the waste.• Students gain a deeper understanding of how waste management practices contribute to pollution control and understood the environmental impacts of landfill waste, recycling benefits, and the significance of waste segregation.• By poster presentation on waste management and recycling, students become more passionate advocates for environmental sustainability in their community.• Presenting a poster in this event enhances student's public speaking and presentation abilities. Also they learn how to convey complex ideas concisely and engage with an audience.
Relevance to PO	PO6, PO7, PO9, PO11

Session 2025-26

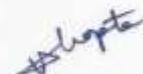

Report

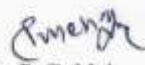

Topic: Poster Presentation on "Waste Management & Recycling to Control Pollution"

Department of Mechanical Engineering organized Poster Presentation on **"Waste Management & Recycling to Control Pollution"** on 06/12/2025 at 3.30 pm on the occasion of National Pollution Control Day (02nd December). Students prepared posters and presented it to spread awareness about waste management and recycling the waste to control pollution. Also students presented the poster to spread awareness to make use of technological innovations in Waste Management and recycling waste to control pollution.

Students gain a deeper understanding of how waste management practices contribute to pollution control and understood the environmental impacts of landfill waste, recycling benefits, and the significance of waste segregation. By poster presentation on waste management and recycling, students become more passionate advocates for environmental sustainability in their community.
