Activity Report (Session: 2025-26)

Category of the Activity:	Administrative Training Program		
Title of the Activity	Time Management & Workplace Efficiency		
Coordinator	Prof. A. M. Kuthe, Prof. V. R. Surjuse		
Date of Activity	23/02/2026 to 28/02/2026		
No. of Students Involved:	Male: 19	Female: 20	Total: 39
Brief about an Activity	This Administrative Training Program is designed to enhance the time management skills and workplace efficiency of non-teaching staff. The session will focus on practical strategies to prioritize tasks, manage workloads effectively, reduce time wastage, and improve overall productivity in daily administrative operations. The program will include interactive discussions, real-life workplace scenarios, task-planning techniques, communication skills, and methods to maintain professional discipline and coordination within departments. Emphasis will be placed on improving organizational skills, teamwork, and efficient handling of responsibilities to ensure smooth institutional functioning. This training aims to build a more organized, proactive, and performance-oriented administrative workforce.		
Objectives	- To improve time management skills and enhance workplace efficiency among non-teaching staff. - To develop better organizational, communication, and task-prioritization abilities for smooth and effective administrative functioning.		
Outcomes	- Participants will demonstrate improved time management and task-prioritization skills in their daily administrative work. - They will enhance workplace efficiency, coordination, and professional effectiveness, contributing to smoother institutional operations.

Report:

The Poster Presentation event was successfully conducted at KDK College of Engineering on 24 December. The event aimed to provide students with a platform to showcase their innovative ideas, research skills, and technical knowledge through visual presentations. It encouraged creative thinking, effective communication, and academic interaction among students and faculty members.

The poster presentation was organized across various engineering disciplines. Students prepared posters on topics related to their respective fields, including emerging technologies, research problems, and practical applications. Each participant was given an opportunity to explain their poster to the evaluators and audience.

Faculty members acted as judges and evaluated the posters based on content, clarity, innovation, visual appeal, and presentation skills. The event witnessed enthusiastic participation from students and active interaction with the judges.

A large number of students actively participated in the event. The posters reflected creativity, technical depth, and originality. Students demonstrated confidence while presenting their ideas and responded effectively to questions raised by the evaluators.

Prof. V.R. Surjuse
